[Coaster Brake Rear Hub](#)

(For rear-wheel-only purchases, we typically do 2/3rds of a total wheel sets price to reflect the higher cost of rear hubs. On this special, we are splitting the cost of the set in half. YAY!)

Customer ride of the week - Mike.E

Local bay area goodness. Super deep v Nude rear Coastie.

- 52cm Dawes sst-aluminum
- fsa vision stem
- origin8 beck 49t/origin8 BB
- wtb rocket v seat
- forte Titan front(700×23 gatorskin)
- Super deep v nude(700×23 conti ultra race)

Been riding the coaster brake for about 5 months now. I was kinda skeptical about the coaster brake at first cuz i was used to riding fixed but it turned out to be better than i thought. I'm really happy with the wheels and would recommend them to anyone.

Ah, the SLO little 500.

We were hanging out with the organizer of this event some time ago and have been lovingly following it since then. **It's a Coaster Brake only, drop bar road bike race on dirt...and it involves beer.**

In the spirit of bringing you all-things Coaster Brake, we we pulled up the knowns and unknowns of the event last month from [their website](#) :

- Known:**
- * Coaster Brake, 700c, and drop bars. Bring them and experience the most fun possible on and off of two wheels.
 - * No beer, No race.
 - * Team RotGut is bringing a pretty danged sweet bicycle (its name is Hamster Tit).

[Deep V Machined wheelset - Red](#)

[Deep V Machined wheelset - Black](#)

[Deep V Machined wheelset - White](#)

Unknown:

- * How many teams is it possible to get up on that hill?
- * How many bare-chested, body-painted, beer-can-tossing, hootin' and hollarin' FANS can we get there to root us on?
- * Where will we EAT in our drunken' stupor of SLOLittle 500 afterglow afterwards?

You can check out [their video](#) too.

Live in California? Come Race, but don't forget the fun.

Fix push

Customer rides

Hey there -

We got a problem at Coasties.

Our customers keep sending in photos of beautiful bikes they put together, but we have no

good way set up of displaying them.

For that reason, we're starting a "customer ride of the week" post until we figure something else out. Here's a couple weeks all at once, just because the bikes are worth it:

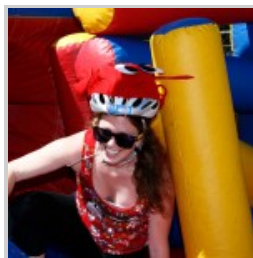

Coasti.es at Urban Assault Seattle

We rode Berkeley Urban Assault. Now heading to Seattle. Come join us for a beer?

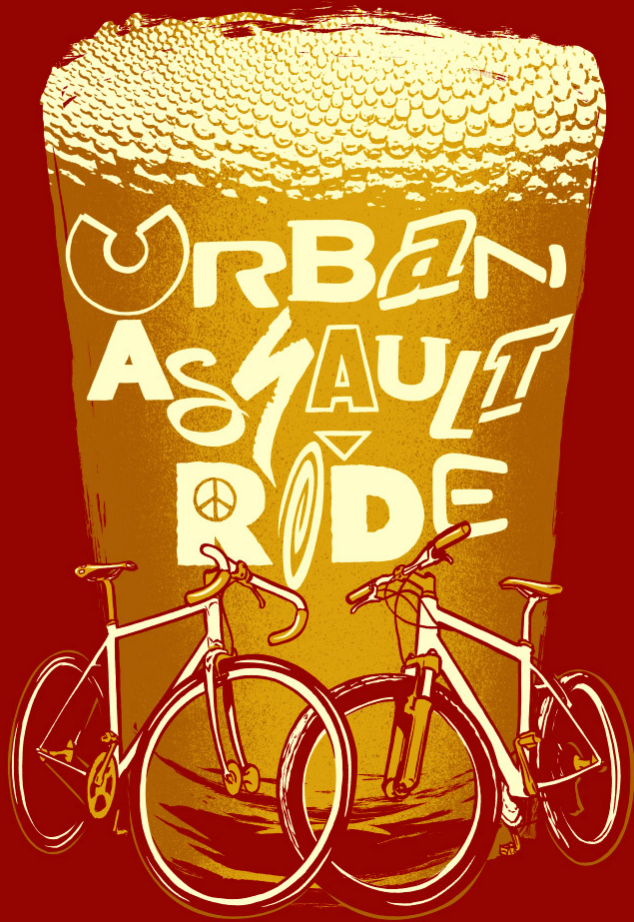

Up on stage talking about Coaster Brakes

It was a frikkin blast you guys. If you are around Seattle on 5/16/10, come join us. We have a bag of candy

Coasti.es rides Urban Assault

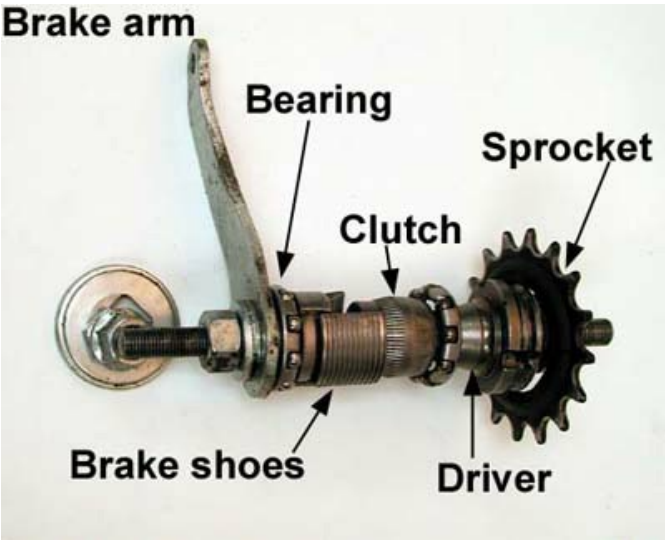

Hey there Coaster fans!

Coasti.es will be riding the May 2nd [Urban Assault Ride](#) in Berkeley. You know it's good when you got bikes, limbo and beer all together in the same spot, all wrapped up as a fundraiser for local non-profits.

Come say hi if you're in the neighborhood! We'll be the guys riding Coaster Brake.

Park Tool Coaster Brake Overhaul guide

Park tool has a great tutorial about these hubs so ya'll can get better acquainted if you are so inclined
